

Chesapeake Technology Summer Training Workshop

July 6, 7 and 8, 2009

Chesapeake Technology, Inc. is proud to sponsor the 2009 Summer Training Workshop to be held July 6-8, 2009 at The Sound School Regional Vocational Aquaculture Center in New Haven, Connecticut.

This 2 ½ day workshop will offer in-depth instruction and training on the latest features of SonarWiz.MAP and SonarWiz.MAP+SBP. This is a hands-on class that will include a half day of real-time data acquisition aboard the RV Island Rover, courtesy of Sound School.

The class is designed for seasoned Chesapeake users as well as newcomers, so bring your laptop and be prepared to learn new things about your favorite sonar software application. The limited class size (30-50) will offer a chance for personalized instruction and training on all functions of the software for both sidescan and sub-bottom data.

Who Should Attend?

Current Users Increase your productivity with SonarWiz.MAP and SonarWiz.MAP+SBP. Obtain advice and tips from the Chesapeake engineering team, share your experience and knowledge with other users, or provide your input for new features and enhancements. Learn and experiment with techniques that will help you process your data more efficiently.

SonarWeb Users If you are currently using SonarWeb, take advantage of the generous workshop discount offer to upgrade to SonarWiz.MAP

Potential Users You've heard good things about Chesapeake now here's your chance for us to prove it to you. Purchase any version of SonarWiz.MAP within 60 days of the class and CTI will apply your registration fee towards your purchase.

What You Will Learn

Day 1:

Real-time Data Acquisition and Mosaic Processing Techniques

Mosaic Post-Processing Techniques

Day 2:
